COMMUNITY LEARNING CULTURE ART

It's AUTUMN!

Hello everybody, hoping that this finds you well, having had a happy summer. Here we go with our Autumn Season - 13 full on weeks of sweet music, bumping club nights and curiosities for your respite & delight!

We've sweated away over this programme for months and months, pushing bookings around so that the shape of the offer is varied across the season in all the right ways and at the right moments. When we are programming, we are always thinking of you all, and we want to make sure that we bring just the right amount of stuff to keep the leftfield experimental lovers as happy as the dancers & the thinkers & do-ers! At times, the sheer jigsaw puzzleness of it all wraps us up in knots, but then this pops out the other side & we are really happy with the balance and so excited for each and every one of the bookings.

This summer Cobalt has had a really hazy crazy mix of festivals & intense work, check out page 11 for our key updates of what we have been working on and our bigger picture, some pretty huge stuff is happening …….. Thank you so much to Love International & Peep for inviting us to take part in two of the best festivals around, it was such an honour to be involved and a whole lot of fun… and also such gratitude to Houghton for being such a beautifully put together place of wonder to absolutely cut loose & blow off a lot of steam! Getting to know the electronic music community on new levels is one of the best bits of everything that we do, it's close-knit and reassuringly full of people who get us & love to dance!

The last thing to say is that grassroots music in general remains on its knees, the 20% rates cut is a nice gesture, but TBH it doesn't touch the sides; the talk and the understanding of why it matters is all there, but the baseline economics remains the same & it's very very precarious. Every single ticket & drink you buy, every gig you come to makes such a difference and helps to keep our doors open. And most importantly, you coming to stuff helps to make the gigs warm, welcoming and worthwhile all this work! We really look forward to seeing you soon,

FROM AROUND THE WORLD MUSIC

Music has many superpowers, and one of the best is that it crosses boundaries and barriers and borders. It is a universal language and such a direct & immersive way for us to learn about other places and cultures, we get to travel without leaving and to hear sounds from afar that we may not have heard before. Here is just a small sample of where some of the artists performing at Cobalt this autumn come from, special mentions to the three bands that come from 9 different counties between them, who perfectly illustrate the unity & connection in music.

UPDATES

COBALT CENTRAL

Cobalt Central, established, funded and led to date by Newcastle City Council and Creative Central NCL, is very close to be handed over to us to complete the fit-out & get the doors open hopefully by Xmas!

It's an amazing opportunity for us and we are so lucky to have this chance. Creative Central NCL has funded the complete renovation of the building on the corner of Grainger Market, but now the work of completing the space with our fit-out starts. We have a small rent-free period and then we are committed to a significant rent each year, so getting the doors open and the business built up ASAP is critical for us. It will be another not-for-profit CIC offering affordable artists' studios, small gallery space, education/workshop space, co-working, studios for young creatives, café & bar. No live music or mashups here, but there will be a basement space with an immersive sound system for gathering, chatting, plotting and planning.

This is a very exciting and very busy time for us! Watch this space.

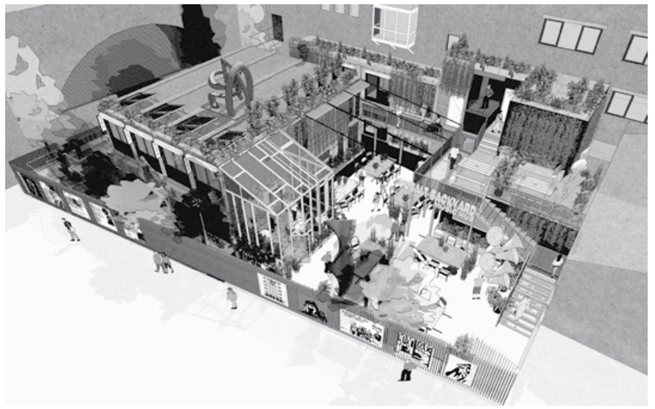

OUR BACKYARD

Our Backyard status is unfortunately still exactly the same, with solid plans in place but no money. We got turned down for our last ACE Creative Foundations application, we've gone in again with the same fund for capital support to create 12 accessible, affordable music studios, community radio station & open access music studio, education/community room, community kitchen & garden. Feedback from the last application was all around risk, too few people doing too much. So this time we have asked for much more to mitigate against risk and bring in quantity surveyors, project managers, architects etc. Please keep your fingers crossed for us, a completed backyard would help to make our daily existence significantly easier & secure Cobalt over the longer term as self-sustaining ecosystem. It would also see the prevention of all that potential sitting there getting older, unused and more derelict.

MERCH

This summer we started exploring merch and playing around with some initial ideas, watch this space!...

WEBSITE

We have also been redesigning and relaunching our website, so that we can make the events easier for you to see, keep tickets in-house to reduce booking fees for you & us, and also developing a membership, with a working title of 'localship'. It's not quite ready yet... but it's sooooo close, big up Yoke studio for being brilliant and very patient with us!

COBALT

AND THANKS SO MUCH TO OUR INCREDIBLY SMALL TEAM FOR BEING ABSOLUTELY BRILLIANT AND ABLE TO RIDE THE WAVE OF TOTAL CHAOS WHILE WE JUGGLE THE DAY-TO-DAY ALONGSIDE ALL OF THE STRUCTURAL STUFF ABOVE..... WE LOVE YOU ALL & COULDN'T DO ANY OF THIS WITHOUT YOU XXX
